

PREVENT HIV WITH *PrEP!*

PrEP IS MEDICATION PEOPLE CAN TAKE TO PREVENT HIV

- PrEP stands for Pre-exposure Prophylaxis
- PrEP can prevent HIV transmission from sex or injection drug use
- PrEP is only for people who do not have HIV
- PrEP can be taken as a daily pill or as an injection every 60 days
- Anyone can take PrEP!

MOST INSURANCE COMPANIES & STATE MEDICAID PLANS COVER PrEP

IF YOU ARE UNINSURED,
